Prepaid airtime is quick and easy, requires no credit check and can be recharged at any time. You will be notified at the e-mail address above when 75% of the airtime you purchased has been used. At that time you can contact GMPCS to "top up" your sim card with additional airtime, or, by initialing below, GMPCS will automatically add additional airtime (equal to the amount of your initial purchase) to your sim, charging the above referenced credit card. Please note that prepaid airtime is non refundable.

_____ Please "Top Up" my prepaid sim card with additional minutes equal to my original purchase when the airtime on my sim card reaches 25% of the initial purchase level. By initialing this section, I authorize GMPCS to charge the credit card above for these automatic recharges. This automatic recharge option will remain in effect until cancelled.

All sim cards are sent active. If you have asked us not to upload a prepaid voucher at the time of activation, you must add prepaid airtime to your sim within 90 days or your sim card will automatically deactivate. It is also very important to note that at the end of the period of validity (from the table above) any unused airtime minutes will be lost, and can not be reclaimed. Additionally, if additional prepaid minutes are not added within 90 days of the expiration of the validity period, the sim card will deactivate. If you have any questions about these two situations, please contact GMPCS Customer Care at +1-954-973-3100 and have a customer care representative run you through your options.
